

## **Newsflash January 2008**

TMD Security is pleased to announce that during CeBIT 2008, March 4<sup>th</sup> until 7<sup>th</sup> in Hannover, Germany, the next generation of the CPK+, the "6000 series" will be exposed.

The CPK+ 6000 series can still be used as a stand alone solution, but also as an integrated part of any ATM or Self Service Terminal.

Besides the known favourable characteristics of the CPK+ next new features have been designed for the CPK+ 6000 series:

- Direct communication with the host.
- Remote monitoring and controlling of the CPK+ performance.
- Centralized Firmware upload possibilities
- Connectivity to CCTV systems

To learn more about all advantages we invite you to visit booth B18 in Hall 17 at the CeBIT in Hannover.

Via TMD's new website we offer a limited number of free passes for CeBIT 2008 to customers who indicate they like to visit booth B18. To obtain these free passes please fill the contact form on TMD's website and mention the number of required tickets under miscellaneous.
