

**TurnKey Security
Equipment, Inc.**

*Quality Service, Quality Products,
Fairly Priced*

March 1, 2008

To: Our Industry Partners

The last two years have been very exciting at TurnKey Security Equipment! We have gone from a simple provider of hard steel products to a full service provider including a full suite of electronic security, alarm monitoring, cash handling equipment and ATM's for our customers.

Most importantly, we have moved from outsourcing service on our products to one as a full fledged service team, able to service not only our equipment, but our competitors as well.

I am excited to announce that as of March 1st, 2008 I have completed the purchase of 100% of the stock in TurnKey Security Equipment Inc. located in Waterloo, Iowa.

My partners Scott Voigt and Steph Weiland own a very successful design build firm, and with the growth both companies have enjoyed over the last several years, the time required as an owner has simply become too great, and they have decided to concentrate on their first passion; architecture and construction. We have enjoyed a wonderful relationship, and will continue to work closely on related projects.

TurnKey Security will continue to provide Turnkey Associates with products and we will market their design build services as part of our product line.

In order to ensure that your records are correct please remove Scott Voigt and Steph Weiland as officers in the company, and adjust your records to reflect our new contact information as follows:

TurnKey Security Equipment, Inc.
2217 205th Avenue
Manchester, IA 52057

Our business has had huge growth the last 12 months and with all honesty, we could not have made the generous progress that we have without you! Thank you for all of your support, we have a very exciting and aggressive plan for 2008 and 2009 and look forward to our continued relationship and building on both of our businesses!

Best regards,

Joe Petchulat
