

Changing Times...Require Advanced Training

ATMIA and FSPA partner to cross-promote industry training

Changes are impacting the ATM industry from all angles and security remains a top concern for both businesses and consumers.

ATM Operators and security servicing companies are the frontline service for ATMs. Is your team adequately trained and certified in their position to handle the constant changes to ATMs, demands and liability to your company? Now is the time to make sure they are with the ATMIA Academy.

We offer the world's first online training certification program based on the most robust body of job-specific operational knowledge in the ATM industry. The [ATMIA Academy](#) features 7 courses that represent detailed training for the industry.

Courses are divided into the following categories:

- ATM Security
- ATM Balancing Clerk
- ATM Custodian
- ATM Field Controller
- ATM Operations Manager
- Customer Service Representative
- Added-Value ATM Services

Now is the time to ensure your staff are properly trained and certified. This certification will raise your employee's knowledge and efficiency while increasing your customer's trust in your services.

ATMIA is excited to offer these courses to FSPA members at the member rate. We invite you to learn more about these courses at [ATMIA Academy](#) or contact Amber Howell at amber.howell@atmia.com or +1-605-692-2263.
